"Silesian municipalities under the blue sky." Online photo exhibition ending the 30th anniversary of the LIFE Programme.

In 2022, the LIFE Program, the EU's funding instrument for the environment and climate action, turned 30 years old.

The photo exhibition presents photos from selected municipalities included in the program "Silesia. Blue Sky Restored". It shows the beauty and diversity of the Silesian Voivodeship.

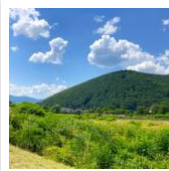

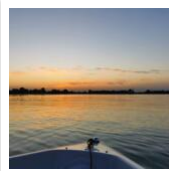

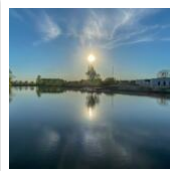

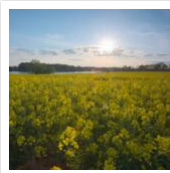

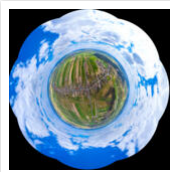

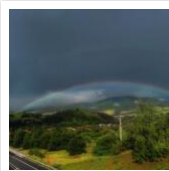

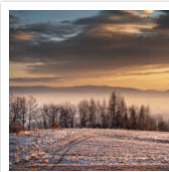

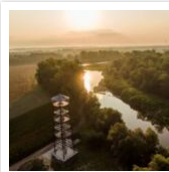

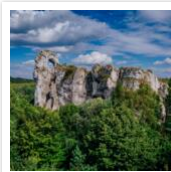

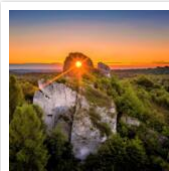

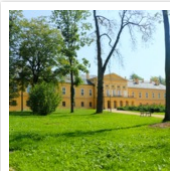

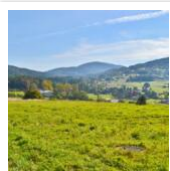

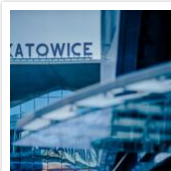

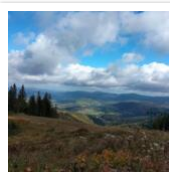

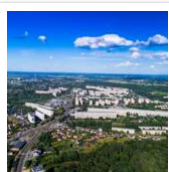

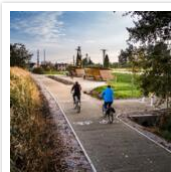

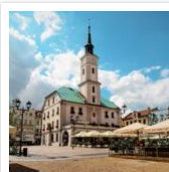

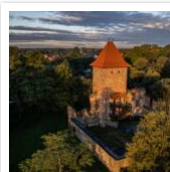

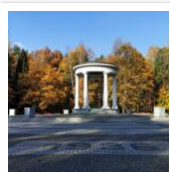

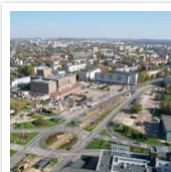

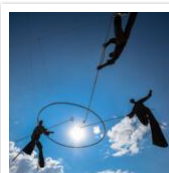

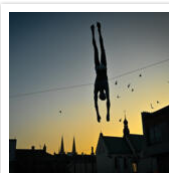

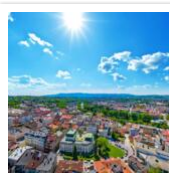

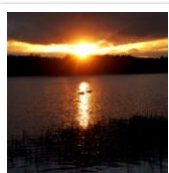

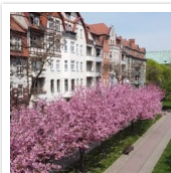

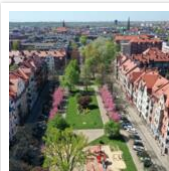

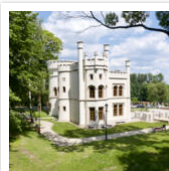

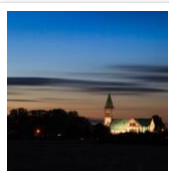

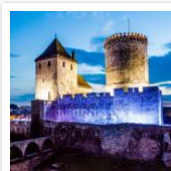

The photographs present unique places where air protection activities are carried out.

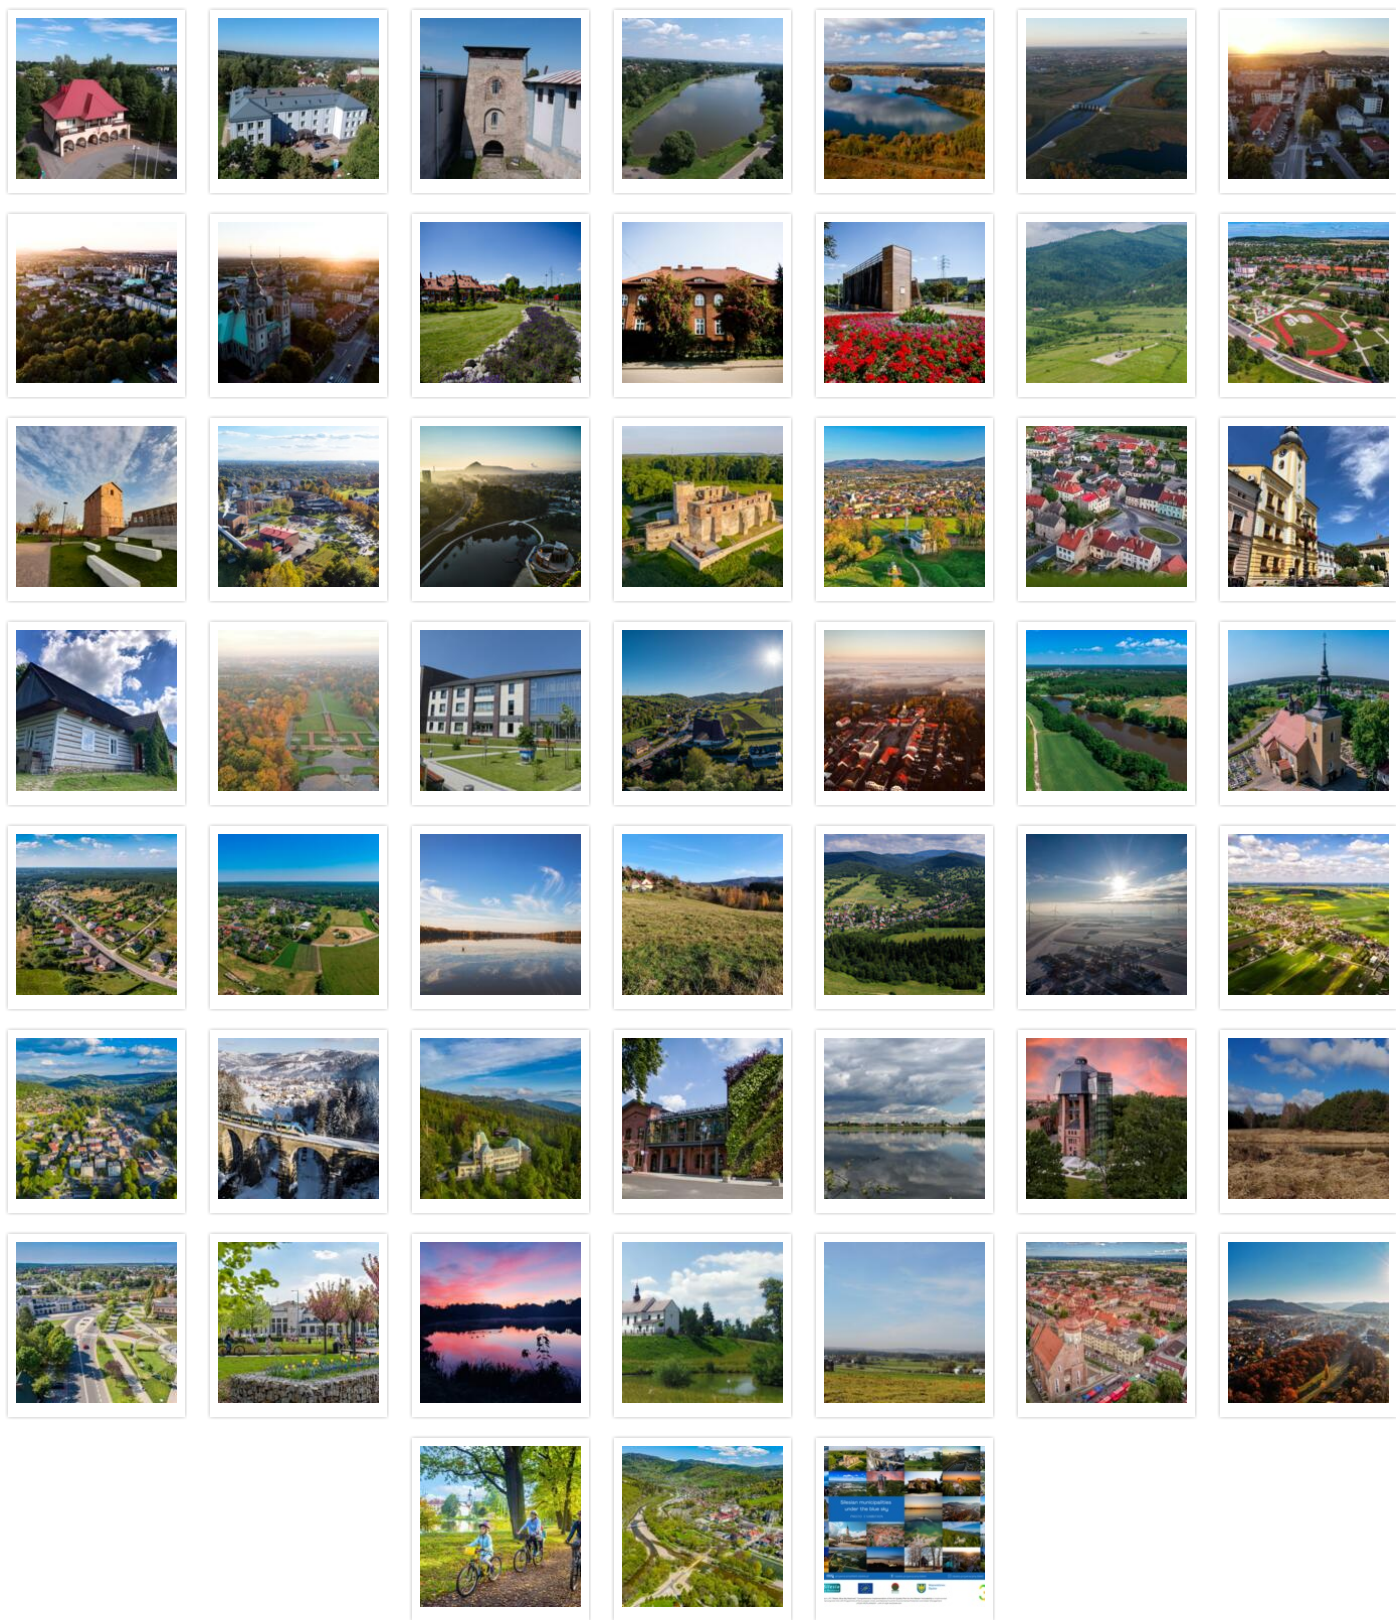

"Silesia. Blue Sky Restored" is the largest EU program on this subject.

All communes in the Silesian Voivodeship are supported by eco-advisors who selected the presented photos.
